## Problems

- Famine
- Pandemic
- War

## Goals

- Happiness
- Immortality
- Divinity

# The decision

*Sustainability: The avoidance of the depletion of natural resources in order to maintain an ecological balance.*

# The first step

A technological application that makes people **aware**, gives **insight** and **support** to contribute to the restoration of the balance between people, planet and profit by making use of **less and greener energy** and thereby reducing the individual footprint.

*I believe that awareness, insight and support can help people to add real value to this capitalistic and information oriented society.*
